

2022 MOS SHOW PRE-REGISTRATION & ON-SITE REGISTRATION GUIDELINES

Welcome! Please use these Guidelines and The MOS Classification List / Judging Schedule for the pre-registration and on-site registration process. **Pre-registration is strongly recommended** via e-mail or snail-mail until 9PM **October 18, 2022**. Pre-registrations received after this deadline will be entered during on-site registration on Set-up day, Thursday, October 20th **11:00 AM to 4:00 PM sharp! Displays must be COMPLETE by 6:00 PM (unless extended by show committee). Please e-mail completed pre-registration forms to Brigitte Fortin bfortin425@msn.com AND copy to Joanna K. Eckstrom at JKEckstrom@comcast.net.**

The MOS Classification List / Show Schedule reflects orchids ‘generally’ grown in our region as well as ‘foreign’ genera. The List describes and gives examples of what is (or is not) in a class and lists all classes in which a plant, cut flower, artwork, exhibit, etc. may be entered. If something is *specifically excluded* from a class, the exception will be noted.

This list was completely updated in 2021 using a list that incorporates name changes in many genera - Sophronitis is Cattleya; Odontoglossum and Colmanara are Oncidium; Ascocenda is Vanda. (Many resources such as Orchids Plus and OrchidWiz, use the ‘old’ name along with the ‘new’). The 2022 Classification List reflects most of these changes but it’s still a work in progress. If you have a question about where something goes, PLEASE ASK.

Keep in mind that, during Ribbon Judging, a Team Captain *may ask* to **expand** a class by adding sub-classes; the Ribbon Judging Chair is the **ONLY** one who may *approve* such changes. (If this happens with your plant, don’t worry – your plant will be judged; and the new sub-class will be shown on next year’s List.)

The official Classification List for this year’s show is in the document entitled:
‘MOS 2022 World of Orchids – Amazon’

Page Footer reads World of Orchids – Amazon FINAL JKE 9122022

The document is on MOS website. The document lists - trophies to be awarded; guidelines and definitions; Exhibit classes 001-013; flower Classes by Alliance; Artwork group; special classes (register in special classes AND in appropriate Flower Class). Note ‘definitions’ appear throughout the Classification List.

Read these Guidelines and Classification List before filling an Entry Form. If any questions, please ASK a Registration Clerk for help.

Oncidinae **intergeneric hybrids** are still a bit confusing. If you have a ‘new’ name on the label, please use the new name. Otherwise, enter Bealleara (**Brassia**, Odontoglossum, Miltonia, Cochlioda) in class 078, "**Brassia** species, hybrids, and intergeneric hybrids; Colmanara (Oncidium, Odontoglossum, Miltonia) in 081 "Miltonia/Milioniopsis intergeneric hybrids ..." And, if you have a question, PLEASE ASK.

In **Paphiopedilum** group, there are specific classes for **Paph. P/NP, complex** and **multifloral** hybrids, please register appropriately.

Standard Phalaenopsis flowers are generally larger than 6 cm (3”) NS (natural spread) at maturity. At maturity, a **Miniature Phal / Dtps** plant generally has flowers that are no more than 3 cm (1 ½”) NS that are borne on multi-branched inflorescences. **Standards and Miniatures should be registered together, by colour group. At judges’ discretion, multiple first place ribbons may be awarded.**

Pay particular attention to definitions of all classes in an alliance. If in doubt about genera involved in a complex intergeneric, check AQ Plus, OrchidWiz, Wildcatt, etc. Do not guess or put a plant into an inappropriate class. Plants entered in the wrong class will usually not be judged. ASK a Registration Clerk for help.

2022 MOS SHOW PRE-REGISTRATION & ON-SITE REGISTRATION GUIDELINES

Many plants are eligible for special trophies - i.e. First Bloom Seedling (**NO meristems**), Plants Grown In the Home. If plant qualifies, list it in appropriate plant class AND special class as separate items on the Entry Form. **This year, there are special classes for LARGE and MINIATURE (Small) Specimen Plants, Classes 127A and 127B. SEE DEFINITION. If your plant qualifies, enter in the flower class AND the appropriate Specimen class.**

New exhibitors may qualify for the Paul B. Moore Trophy for Best Exhibit by a Novice. A **novice** is an exhibitor (and co-exhibitors) who has never received a ribbon or an award for an orchid show exhibit (display). Ribbons for plants do not limit eligibility. If unsure about whether to enter exhibit class 012, ASK the Registration Clerks.

Another special award is the Wilford B. Neptune trophy given to the **Grower** of a plant that demonstrates cultural excellence. Each judging team will nominate a candidate from the flower class group(s) that they judge. Team captains will determine the winner of the award.

Plants may also be judged in Class 151, Fragrance (Best / Worst). Fragrance is judged by: 1. Intensity (strength of fragrance); 2. Diffuseness (Fragrant from distance or only close up?); 3. Pleasantness (or Unpleasantness); 4. Elegance (How well-rounded and perfumed is the fragrance?); 5. Instant appeal (Do I like it and how much?)
If an entire display is of Fragrant plants, register display in Class 006; register each plant in Class 151; AND register EACH plant in appropriate flower class. Plants in Class 151 Fragrance **MUST BE PLACED** so that it's **easily** accessible to judges without being moved. All plants registered in Class 151 Fragrance **MUST ALSO BE** registered in the appropriate flower class to be considered for any ribbon, trophy, or award.

Non-Flowering Neofinetia, Dendrobium, etc. should be entered in Class 122B Other non-flowering orchids.

Please use the Fillable Entry Form or similar document for all registrations. Clearly fill-in or print all information EXCEPT Exhibit No., Exhibitor Number and Assigned Ticket Number. If using the Fillable Form, save it as a **.doc** (not .docx) file with your name, society, file1.doc ... i.e. eckstrom mos file 1.doc etc. **Registrar will assign an Exhibit Number for each display and Exhibitor Number for each person that has a plant or other item entered in a display.** *The Orchid Show Management program generates the Assigned Ticket Number.*

Info YOU provide on Plant Entry Form should have: Line 1: Genus and species or hybrid registered name, clonal epithet, AOS awards (if any) OR parent names of an unregistered hybrid. Lines 2 and 3: Parent names of a registered hybrid

Pre-register all plants or items that you'll show; tags will be ready at setup. If you don't use an item, mark DELETE on tag, return it to Registration. *You may register additional plants on set-up day.*

If registering at set-up, use an official Entry Form or similar document, print clearly, and follow above examples as a guide. Bring complete and accurate Entry Forms to Registration desk as early as possible on set-up day so that we can accommodate everyone in a timely and organized manner. Judging tags will be returned to you as soon as practical only after all items on your Entry Form have been entered into the OSM database.

To be eligible for any MOS Show Ribbon, Trophy or Special Award, a plant, exhibit or exhibit item must be in the database. If, for any reason, you do not show an item that is in the database, write DELETE on Judging Tag and return it to Registration Desk so that it can be removed from the database.

All plants (registered or not) may be considered (pulled) for AOS Judging. If awarded, exhibitor is responsible for any fees associated with award. If you specifically want your plant AOS Judged, please ask for an AOS entry form. *If you do not want a plant considered for AOS Judging, please ask us for a "Not for AOS Judging" card.*

We look forward to a smooth Registration process and a great show! With your cooperation, it will happen!

Best regards,

Brigitte Fortin, Registrar bfortin425@msn.com

Joanna K Eckstrom, Chair AOS and Ribbon Judging Activities JKEckstrom@comcast.net
